Hi Bill. Jeff Frithsen, Mary Hanley and I are coordinating.

Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process

The process is that Region 8 prepares a draft comment letter for review, vetting and editing. We haven't settled on a timeline as yet, but that will be our next step. Wyoming is holding a public meeting in January, FYI.

Let me know if you are the coordinator for OW.

Good morning and happy holidays!

I noticed that Wyoming released their draft final report on groundwater in the Pavillion area. I was wondering if you all were coordinating a review of Wyoming's report.

Cheers

Bill
